Integrated Symposium:
Harnessing the powers of PCR and IGRA to improve clinical insights in medical microbiology

ESCMID appointed chair: Martina Sester, Homburg, Germany
Industry chair: Tadd Lazarus, Germatown, MD, USA

CD8 and TB Infection: the potential role of CD8 in TB diagnosis
David Lewinsohn, Portland, OR, United States

Early clinical trial data with the QFT®-Plus IGRA assay
Daniela M. Cirillo, Milan, Italy

Recent advances in the management of CMV infections post-transplantation with PCR and IGRA
Tiziana Lazzarotto, Bologna, Italy

The use of PCR to gain additional insights into colonization by Clostridium difficile
Ed J. Kuijper, Leiden, Netherlands

Organized by: QIAGEN
