Integrated Symposium:
From single to syndromic testing: the new paradigm in microbiology

ESCMID appointed chair: TBC
Industry chair: Prof Christine Ginocchio, Durham, USA

The value of multiplex syndromic tests in the context of gastro-intestinal infections
Mr Prof Dr Fausto Baldanti, Pavia, Italy

Respiratory tract infections: how does rapid, point of care multiplex PCR tests impact clinical decision making?
Ms Dr Dakshika Jeyaratnam, London, United Kingdom

Role of syndromic PCR tests in the management of meningitis and encephalitis
Ms Prof Christine Ginocchio, Durham, United States

The clinician perspective: how can syndromic tests support antibiotic stewardship?
Mr Dr François-Xavier Lescure, Paris, France

Organized by: BioMerieux
